

RTR Workshop IP-basierte Zusammenschaltung für Sprache.

Vienna, February 2015

Interconnection Agreements

- H3A offers actively only IP based Interconnection Agreements to other IC Partners
- All international IC traffic is already switched to IP IC
- IC Partners national

T Mobile Austria GmbH	IP
Mediainvent	IP
UPC	IP
Massresponse	TDM/IP
Tele2	TDM
Colt	TDM
A1TA	TDM

■ Demands for IC Technology

- Operators should not maintain two different systems (hardware/software) because of different technology standards
- No quality losses due to IC transcoding problems by using of different codecs
- New network equipment only supports IP based technology but not old TDM technology – new entrant and operators who's equipment is defect would not be able to fulfill TDM based IC;
- IP shall be the standard!!!

There's another way.
