- 700 MHz – Implementing Decision

700 MHz Implementing Decision (1)

- March 16th, 2016: Radio Spectrum Committee (RSC), adoption of the „**Commission Implementing Decision on the harmonisation of the 694-790 MHz frequency band for terrestrial systems capable of providing wireless broadband electronic communications services and for flexible national use in the Union**”
- **Article 1**

This Decision harmonises the technical conditions for the availability and efficient use of the 694-790 MHz (‘700 MHz’) frequency band in the Union for terrestrial systems capable of providing wireless broadband electronic communications services.

It aims also to facilitate flexible national use in response to specific national needs in accordance with RSPP spectrum policy priorities.

The harmonised conditions for the 790-791 MHz frequency band under this Decision shall apply without prejudice to the provisions of Commission Decision 2010/267/EU.

700 MHz Implementing Decision (2)

Article 3

- When Member States designate and make available the 700 MHz frequency band for use other than high-power broadcasting networks, they shall:
 - designate and make available the 703-733 MHz and 758-788 MHz frequency bands, on a non-exclusive basis, for terrestrial systems capable of providing wireless broadband electronic communications services in compliance with the parameters set out in Sections A.1, B and C of the Annex;
 - subject to national decisions and choice, designate and make available the portions of the 700 MHz frequency band other than those referred to in paragraph 1(a), for use in compliance with the parameters set out in Sections A.2 to A.5 of the Annex.
- Member States shall facilitate coexistence among different uses referred to in paragraph 1.
- **Annex:** Technical conditions based on [CEPT report 60](#)
