Zudem gibt es am Wochenende häufig Live-Sportübertragungen der heimischen Clubs.

Wesentliches Gestaltungselement des Hörfunkprogramms „Antenne Steiermark“ ist die regionale Ausrichtung. Der Regionalität wird täglich sowohl hinsichtlich des öffentlichen, kulturellen, wirtschaftlichen, sportlichen und religiösen Lebens in der Steiermark Rechnung getragen. Dies geschieht einerseits durch die Wetter- und Verkehrsnachrichten, die naturgegebenermaßen auf die Steiermark fokussieren, vor allem aber durch die zahlreichen regionalen Beiträge und den „Steiermark-Newsflash“, die jeweils fünf Minuten vor der halben Stunde gebracht werden sowie den sog. „Sportminuten“ drei Mal am Tag, zum Teil auch live aus den Stadien. Insbesondere in zwei Sendungen („Muntermacher“ und „Drivetime“) wird darüber hinaus eine starke Einbindung der steirischen Hörer und Hörerinnen vorgenommen, indem diese anrufen und in den Sendungen ihre Meinungen aktiv äußern können. Eine aktive Hörereinbindung erfolgt weiters über den Online Auftritt der Antragstellerin, der mittlerweile etwa 70.000 Fans zählt und für die Hörerinnen und Hörer nicht nur Informationsplattform ist, sondern es ihnen ermöglicht, aktiv mit den Moderatoren in Kontakt zu treten, Feedback und Meinungen abzugeben oder Musikwünsche zu deponieren. Mit dem ebenfalls eineinhalb Minuten dauernden täglich gesendeten Programmelement „Gott und die

Welt“ widmet sich die Antragstellerin dem religiösen Leben, wobei hier Kooperationen mit Vertretern der katholischen und evangelischen Kirche existieren.

Ferner sendet die Antragstellerin regelmäßig steiermarkspezifische Konsumenteninformationen (z.B. Installateure zur beginnenden Heizsaison oder Urlaubstrends und Tipps), Freizeittipps und auch Wirtschaftsinformationen, welchen täglich eine eineinhalb Minuten dauernde Beitragsleiste „Wirtschaftsnews“ gewidmet ist. Hier werden Hintergrundinformationen über das steirische Wirtschaftsleben gebracht, dies unter anderem in Zusammenarbeit mit der Wirtschaftskammer Steiermark.

Darüber hinaus besteht nicht nur ein redaktionell gesetzter, regionaler Eigenschwerpunkt im Programm, sondern vielfältige Kooperationen aus den Bereichen Sport, Politik, Wirtschaft, Kultur, Soziales und Jugend. Als Beispiele benannte die Antragstellerin unter anderem den Graz Marathon, Kooperationen mit den größten Fußball (SK Sturm) und Eishockeyclubs (Graz 99ers und HC Steelers) der Steiermark, den Steirischen Schulski- und Schulgolftag, das Steirische Märchen- und Erzählfestival, diverse Charity Aktionen (Steierer für Steier 2013, Unterstützung des Haus Elisabeth uvm.) oder „Antenne macht Schule“, ein Format welches Schülerinnen und Schülern Einblicke in den Arbeitsalltag gewährt und ihnen die Möglichkeit bietet zu einem tagesaktuellen Thema selbst einen Beitrag zu gestalten, der anschließend im Programm gesendet wird.

Zusätzlich zu den Sende- und Produktionsstudios entstehen 18 voll ausgestattete redaktionelle Arbeitsplätze für die Bereiche News, Hörservice, Moderationsvorbereitung, Chef vom Dienst und Ausbildung. Erstmals soll auch ein eigener Bereich für die Onlineredaktion realisiert werden. Gleichzeitig wird ebenfalls die technische Ausstattung erneuert.

2.3.5. Finanzierung

In finanzieller Hinsicht verweist die Antragstellerin auf die stabile finanzielle Situation. Das Finanzierungskonzept der Antragstellerin basiert überwiegend auf zwei Erlösquellen, das sind einerseits die aus dem regionalen Verkauf von Werbezeiten erzielten Umsätze und andererseits die über die Kooperation mit der Radio Marketing Service (RMS) erzielten nationalen Erlöse. Hinzu kommt die seit dem Jahr 2010 jährlich ausgeschüttete Förderung aus dem Privatrundfunkfonds. Darüber hinaus findet die Antragstellerin durch die Einbettung in den Konzern der Styria Media Group AG finanziellen Rückhalt. Im Rahmen einer Patronatserklärung vom 17.11.2014 erklärte die Styria Media Group AG, die Antragstellerin jederzeit mit ausreichendem Kapital auszustatten, um im Falle eines Kapitalbedarfs den Geschäfts- und Hörfunkbetrieb während der gesamten Laufzeit der Hörfunkzulassung sicherzustellen.

In den Jahren 2012 und 2013 erzielte die Antragstellerin laut den von ihr vorgelegten Ist-Erlösen aus dem Verkauf von Werbezeiten Einnahmen von insgesamt EUR 5.885.000 (2012) bzw. EUR 6.323.000 (2013), wobei jeweils mehr als die Hälfte davon aus dem regionalen Verkauf erwirtschaftet wurden. So erzielte die Antragstellerin aus dem regionalen Werbezeitenverkauf im Jahr 2012 Erlöse in Höhe von EUR 3.108.000 und im Jahr 2013 von EUR 3.438.000.

In ihren finanziellen Planungen für die ab 2015 beantragte Zulassung geht die Antragstellerin von einer sanften, kontinuierlichen jährlichen Steigerung ihrer aus Werbezeitenverkäufen erzielten regionalen Erlöse aus, wobei sie hinsichtlich der aus der nationalen Vermarktung über die RMS erzielten Umsätze konstante Einnahmen bzw. nur geringfügige Steigerungen veranschlagt. Mit dem Launch einer neuen Website bzw. anderen digitalen Produkten soll ab 2015 ein weiterer Erlösstrom generiert werden.

Ihre Budgetplanung nimmt die Antenne Steiermark für die ersten drei Jahre nach einer neuerlichen Zulassungserteilung, also bis zum Jahr 2018, vor. Hierbei geht sie von Gesamterlösen in Höhe von rund EUR 7.174.639 im Jahr 2015 aus und plant für die Folgejahre deren kontinuierliche Steigerung bis hin zu EUR 7.360.092 für das Jahr 2018. Die Antragstellerin geht gemäß den vorgelegten Unterlagen im Jahr 2015 von einem Gesamtergebnis von EUR 214.073 aus. Im Jahr 2018 rechnet die Antragstellerin mit einem positiven Gesamtergebnis von EUR 452.249.

Ein Redaktionsstatut wurde der KommAustria vorgelegt.

2.3.6. Technisches Konzept

Das von der Antenne Steiermark Regionalradio GmbH & Co KG vorgelegte technische Konzept ist fernmeldetechnisch realisierbar.

Zwischen dem mit den verfahrensgegenständlichen Übertragungskapazitäten versorgbaren Gebiet „Steiermark“ und dem der Antenne Kärnten Regionalradio GmbH zugeordneten Versorgungsgebiet „Kärnten“ besteht ein lückenloser Anschluss. Unter Zugrundelegung

einer Mindestfeldstärke von 54 dBµV/m besteht eine Doppelversorgung im Ausmaß von ca. 3.000 Personen, welche aufgrund der topographischen Gegebenheiten technisch unvermeidbar ist.

2.4. Stellungnahme der Steiermärkischen Landesregierung

In ihrer Stellungnahme gemäß § 23 PrR-G hinsichtlich der Zuordnung des Versorgungsgebietes „Steiermark“ vom 11.12.2014 sprach sich die Steiermärkische Landesregierung für eine neuerliche Zulassung zur Veranstaltung von Hörfunk im Versorgungsgebiet „Steiermark“ der Antenne Steiermark Regionalradio GmbH & Co KG aus.

3. Beweiswürdigung

Die Feststellungen ergeben sich aus dem eingebrachten Antrag sowie den zitierten Akten des Bundeskommunikationssenates und der KommAustria.

Die festgestellten gesellschaftsrechtlichen Verhältnisse wurden durch Vorlage von Firmenbuchauszügen nachgewiesen bzw. ergeben sich aus dem offenen Firmenbuch oder dem zentralen Vereinsregister.

Die Antragsinhalte und weiteren Vorbringen der Antragstellerin, auf denen die getroffenen Feststellungen im Hinblick auf die fachlichen, finanziellen und organisatorischen Voraussetzungen sowie zum geplanten Programm beruhen, sind glaubwürdig.

Die Feststellungen zur Realisierbarkeit des technischen Konzepts der Antenne Steiermark Regionalradio GmbH & Co KG ergeben sich aus dem schlüssigen und nachvollziehbaren frequenztechnischen Gutachten des Amtssachverständigen vom 20.01.2015.

4. Rechtliche Beurteilung

4.1. Ausschreibung und Zuständigkeit

Gemäß § 31 Abs. 2 PrR-G, BGBl. I Nr. 20/2001 idF BGBl. I Nr. 50/2010, werden die Aufgaben der Regulierungsbehörde nach dem Privatradiogesetz von der KommAustria wahrgenommen.

Die KommAustria hat daher fristgerecht das Versorgungsgebiet „Steiermark“ am 16.09.2014 gemäß § 13 Abs. 1 Z 1 PrR-G ausgeschrieben. Gemäß § 13 Abs. 2 PrR-G erfolgte die Ausschreibung im „Amtsblatt zur Wiener Zeitung“, im Standard und der Presse sowie auf der Website der Regulierungsbehörde unter der Geschäftszahl KOA 1.160/14-001.

4.2. Rechtzeitigkeit des Antrags

Die in der Ausschreibung festgesetzte Frist endete am 25.11.2014, um 13 Uhr. Der Antrag der Antenne Steiermark Regionalradio GmbH & Co KG langte innerhalb der in der Ausschreibung festgesetzten Frist bei der KommAustria ein.

4.3. Voraussetzungen bzw. Ausschlussgründe gemäß § 5 Abs. 2 iVm §§ 7-9 PrR-G

Gemäß § 5 Abs. 2 PrR-G haben Anträge auf Erteilung einer Zulassung jedenfalls zu enthalten

1. bei juristischen Personen und Personengesellschaften die Satzung oder den Gesellschaftsvertrag,
2. Nachweise über die Erfüllung der in den §§ 7 bis 9 genannten Voraussetzungen, und
3. eine Darstellung über die für die Verbreitung des Programms geplanten Übertragungskapazitäten, insbesondere den geplanten Sendestandort, die geplante Frequenz, die Sendestärke und die Antennencharakteristik.

Daher hat die KommAustria zunächst zu prüfen, ob die Voraussetzungen bzw. die Ausschlussgründe nach den §§ 7 bis 9 PrR-G vorliegen.

Ferner dürfen sich die einer Person oder Personengesellschaft zuzurechnenden Versorgungsgebiete nicht überschneiden. (2) Die Einwohnerzahl in den einem Medienverbund zuzurechnenden Versorgungsgebieten darf zwölf Millionen nicht überschreiten, wobei die Einwohnerzahl in den einer Person oder Personengesellschaft des Medienverbundes zuzurechnenden Versorgungsgebieten acht Millionen nicht überschreiten darf. Für die Zwecke dieses Absatzes ist ein Versorgungsgebiet einem Medienverbund dann zuzurechnen, wenn eine Person oder Personengesellschaft des Medienverbundes selbst Zulassungsinhaber für dieses Versorgungsgebiet ist oder bei einem Zulassungsinhaber unmittelbar über Beteiligungen oder Einflussmöglichkeiten im Sinne des Abs. 4 Z 1 verfügt.

(3) Personen oder Personengesellschaften desselben Medienverbundes dürfen denselben Ort des Bundesgebietes, abgesehen von technisch unvermeidbaren Überschneidungen (spill over), nicht mehr als zweimal versorgen.

2. bei welchen eine der in Z 1 genannten Personen oder Personengesellschaften mehr als 25 vH der Kapitalanteile oder Stimmrechte hält oder einen beherrschenden Einfluss hat oder über eine der in § 244 Abs. 2 in Verbindung mit Abs. 4 und 5 des Handelsgesetzbuches geregelten Einflussmöglichkeiten verfügt;

Für die Zwecke dieses Absatzes ist es einer direkten Kapitalbeteiligung von mehr als 25 vH gleichgestellt, wenn eine oder mehrere mittelbare Beteiligungen bestehen und die Beteiligung auf jeder Stufe mehr als 25 vH erreicht. Beteiligungen von Medieninhabern oder von mit diesen gemäß diesem Absatz verbundenen Personen auf derselben Stufe sind für die Ermittlung der 25 vH Grenze zusammenzurechnen.

(5) Ein Medieninhaber darf nicht Mitglied eines als Verein organisierten Hörfunkveranstalters sein.

4.3.1. Voraussetzungen gemäß den §§ 7 und 8 PrR-G

Die Antenne Steiermark Regionalradio GmbH & Co KG hat ihren Sitz in Österreich. Auch die unmittelbaren und mittelbaren Eigentümer der Antragstellerin sind entweder österreichische

Staatsbürger bzw. haben ihren Sitz in Österreich. Die Antragstellerin ist weder als Aktiengesellschaft organisiert, noch liegen Treuhandverhältnisse vor.

Die mit der Antragstellerin über deren Komplementärin verbundene Styria Media Group AG, steht zu 98,33% im Eigentum der Katholischer Medien Verein Privatstiftung, deren Stifter zu 99,7 % der Katholische Medien Verein, ist. Infolge des Umstandes, dass der Vorstand der Privatstiftung vom Obmann und dem Obmannstellvertreter des Stifters und aus weiteren von dessen Verwaltungsausschuss entsandten Personen gebildet wird, besteht ein faktischer Einfluss des Stifters auf die Tätigkeit der Privatstiftung.

Die Voraussetzungen nach § 7 PrR-G sind demnach gegeben. Weiters liegt auch kein Ausschlussgrund im Sinne der Bestimmung des § 8 PrR-G vor.

4.3.2. Voraussetzungen gemäß § 9 PrR-G

Die Antenne Steiermark Regionalradio GmbH & Co KG verfügt neben ihrer am 01.09.2015 auslaufenden aktuellen Zulassung für das Versorgungsgebiet Steiermark über keine weiteren Hörfunkzulassungen, sodass keine Konstellation gegeben ist, die einen Ausschlussgrund nach § 9 Abs. 1 PrR-G bilden würde.

Die Bestimmungen gemäß § 9 Abs. 2 bis 4 PrR-G legen weitere Zulässigkeitsbeschränkungen für Medienverbunde fest, wobei gemäß Abs. 2 leg. cit. bestimmte Einwohnergrenzen in den jeweils zuzurechnenden Versorgungsgebieten nicht überschritten werden dürfen und gemäß Abs. 3 leg. cit. ein Ort des Bundesgebietes, abgesehen von technisch unvermeidbaren Überschneidungen (spill over), mit nicht mehr als zwei analogen (Z 1) bzw. zwei digitalen terrestrischen (Z 2) Hörfunkprogrammen von Personen oder Personengesellschaften desselben Medienverbundes versorgt werden darf; ebenso wenig ist die Versorgung eines Ortes mit mehr als einem terrestrischen Hörfunkprogramm und zwei terrestrischen Fernsehprogrammen (Z 3) zulässig.

Über die gemeinsame Komplementärgesellschaft und 100%-Tochter der Styria Media Group AG, die Styria Media Regional GmbH, ist die Antenne Steiermark Regionalradio GmbH & Co KG mittelbar mit der Antenne Steiermark Regionalradio GmbH im Sinne von § 2 Z 7 iVm § 9 Abs. 4 PR-G verbunden, welche Inhaberin einer Hörfunkzulassung für das Versorgungsgebiet „Kärnten“ ist .

Unter Berücksichtigung der technisch erreichbaren Einwohner in den ebenfalls dem Medienverbund der Styria-Gruppe zurechenbaren Versorgungsgebieten der Antenne Kärnten Regionalradio GmbH & Co KG werden die Einwohnergrenzen des § 9 Abs. 2 PrR-G bei weitem nicht erreicht. Auch derselbe Ort des Bundesgebietes wird – mit Ausnahme von technisch nicht vermeidbaren Überschneidungen (spill over) – nicht mehr als zweimal mit terrestrischen Hörfunkprogrammen durch ein dem Medienverbund zurechenbares Programm versorgt.

Es liegen daher keine Sachverhalte vor, welche die Erteilung einer Zulassung an die Antragstellerin nach den Kriterien gemäß § 9 Abs. 2 und Abs. 3 iVm § 9 Abs. 4 PrR-G unzulässig machen würden, zumal Mitglieder desselben Medienverbundes denselben Ort zweifach versorgen dürfen.

4.4. Fachliche, finanzielle und organisatorische Eignung

Gemäß § 5 Abs. 3 PrR-G hat, wer einen Antrag auf Erteilung einer Zulassung stellt, glaubhaft zu machen, dass er fachlich, finanziell und organisatorisch die Voraussetzungen für eine regelmäßige Veranstaltung und Verbreitung des geplanten Programms erfüllt.

Ungeachtet der grundsätzlichen Amtswegigkeit des Ermittlungsverfahrens trifft hier also den jeweiligen Antragsteller ausdrücklich die Verpflichtung, jene Umstände der Behörde mitzuteilen und in geeigneter Form zu belegen, die der Behörde ein Urteil über die Wahrscheinlichkeit (Walter/Mayer, *Verwaltungsverfahrenrecht*⁸, Rz 315) der fachlichen, finanziellen und organisatorischen Eignung des Antragstellers ermöglichen.

Die Antragstellerin hat im Zuge des Verfahrens zur Glaubhaftmachung der fachlichen und organisatorischen Voraussetzungen auf ihre bestehende Zulassung zur Veranstaltung von Hörfunk und auf die bestehende Erfahrung aus ihren bisherigen Tätigkeiten verwiesen bzw. führt Personen an, die am bestehenden Hörfunkprogramm federführend mitwirken.

Auch wenn im Zuge der Erteilung der derzeit bestehenden Zulassung das Vorliegen der fachlichen, finanziellen und organisatorischen Voraussetzungen glaubhaft zu machen und von der Behörde zu würdigen war, so geschah dies auch dort nur im Rahmen einer Prognoseentscheidung. Sollte sich im Zuge der Zulassungsausübung herausstellen, dass die von der Behörde getroffene Prognose nicht zutrifft und die Hörfunkveranstalterin die notwendigen Voraussetzungen gar nicht (oder nicht mehr) erfüllt, so wäre dies auch kein Grund für den Widerruf (vgl. § 28 Abs. 1 PrR-G) oder das Erlöschen (vgl. § 3 Abs. 3 PrR-G) der Zulassung. All dies bedeutet jedoch, dass in einem weiteren Zulassungsverfahren das Vorliegen dieser Voraussetzungen nicht zwingend aus der Innehabung einer Zulassung folgt, sondern stets neu zu beurteilen ist. Sehr wohl lassen sich aber aus der Tätigkeit und dem Verhalten der Hörfunkveranstalterin im Rahmen bereits erteilter Zulassungen Rückschlüsse darüber ziehen, ob die fachlichen, organisatorischen und gegebenenfalls auch finanziellen Voraussetzungen für die regelmäßige Veranstaltung eines (allenfalls auch weiteren) Hörfunkprogramms vorliegen.

Die Antenne Steiermark Regionalradio GmbH & Co KG sendet im Versorgungsgebiet „Steiermark“ seit fast zwanzig Jahren ein 24 Stunden-Programm. Unter Berücksichtigung dieser Tatsache und unter Einbeziehung der dadurch gewonnenen Erfahrungen ist davon auszugehen, dass die Antragstellerin bzw. ihre Mitarbeiter die fachlichen und organisatorischen Voraussetzungen zur Verbreitung eines regelmäßigen Hörfunkprogramms auch für weitere zehn Jahre erbringen. Das von der Antragstellerin vorgelegte Organigramm mit den dargestellten Arbeitsbereichen und den jeweils dafür verantwortlichen Personen bietet in organisatorischer Hinsicht ausreichend Gewähr für die Veranstaltung eines Hörfunkprogramms.

Die Antragstellerin legte zur Glaubhaftmachung der finanziellen Voraussetzungen u.a. Erlösplanungen, Investitionsplanungen und Planbudgets bis zum Jahr 2018 vor sowie die Ist-Erlöse aus Werbezeitverkäufen der Jahre 2002 bis 2013. Die Erlösplanungen für die kommenden Geschäftsjahre gehen von einer kontinuierlichen Steigerung der regionalen Erlöse aus, während gleichbleibende nationale Erlöse angenommen werden. Die Unterlagen sind insgesamt schlüssig und vermitteln – unter Berücksichtigung, dass die Antragstellerin bereits Zulassungsinhaberin im gegenständlichen Versorgungsgebiet ist und der Businessplan daher nur als Fortführung des laufenden Geschäftsbetriebes zu sehen ist – den Eindruck einer realistischen Einschätzung der wirtschaftlichen Faktoren für die Veranstaltung eines Hörfunkprogramms in der Steiermark durch die Antragstellerin.

Die KommAustria hat somit keine Bedenken hinsichtlich der fachlichen, finanziellen und organisatorischen Eignung der Antragstellerin, zumal sie diese auch in den vergangenen zehn Jahren unter Beweis gestellt hat. Überdies ist auch für die Zukunft der finanzielle Rückhalt durch die Styria Media Group AG gewährleistet.

4.5. Einhaltung der Programmgrundsätze des § 16 PrR-G

Gemäß § 5 Abs. 3 PrR-G hat ein Antragsteller glaubhaft zu machen, dass die Programmgrundsätze gemäß § 16 PrR-G eingehalten werden, dies insbesondere durch die Vorlage eines Programmkonzepts und des geplanten Programmschemas sowie des in Aussicht genommenen Redaktionsstatuts.

§ 16 PrR-G lautet wörtlich:

„§ 16. (1) Die auf Grund dieses Bundesgesetzes veranstalteten Programme haben den Grundsätzen der Objektivität und Meinungsvielfalt zu entsprechen.

(2) Die Veranstalter haben in ihren Programmen in angemessener Weise insbesondere das öffentliche, kulturelle und wirtschaftliche Leben im Versorgungsgebiet darzustellen. Dabei ist den im Versorgungsgebiet wesentlichen gesellschaftlichen Gruppen und Organisationen nach Maßgabe redaktioneller Möglichkeiten Gelegenheit zur Darstellung ihrer Meinungen zu geben.

(3) Sendungen dürfen keinen pornographischen oder gewaltverherrlichenden Inhalt haben.

(4) Alle Sendungen müssen im Hinblick auf ihre Aufmachung und ihren Inhalt die Menschenwürde und die Grundrechte anderer achten und dürfen nicht zu Hass auf Grund von Rasse, Geschlecht, Religion und Nationalität aufstacheln.

(5) Berichterstattung und Informationssendungen haben den anerkannten journalistischen Grundsätzen zu entsprechen. Nachrichten sind vor ihrer Verbreitung mit der nach den Umständen gebotenen Sorgfalt auf Wahrheit und Herkunft zu prüfen.

(6) Abs. 2 gilt nicht für Programme, die auf im Wesentlichen gleichartige Inhalte (Spartenprogramme) oder Zielgruppen beschränkt sind.“

Die Antragstellerin hat ihr Redaktionsstatut sowie das Programmkonzept und Programmschema vorgelegt und glaubhaft dargelegt, dass im Falle einer Zulassung die Programmgrundsätze des § 16 PrR-G eingehalten würden.

Somit erfüllt die Antragstellerin die gesetzlichen Voraussetzungen gemäß § 5 Abs. 2 und 3 iVm §§ 7 bis 9 PrR-G.

4.6. Stellungnahme der Steiermärkischen Landesregierung

Das Privatradiogesetz sieht in § 23 leg. cit. ein Stellungnahmerecht der Landesregierungen vor, in deren Gebiet sich das beantragte Versorgungsgebiet zumindest teilweise befindet.

Die Bestimmung des § 23 PrR-G lautet wie folgt:

„§ 23 (1) Nach Einlangen eines Antrages auf Erteilung einer Zulassung gemäß § 5 ist den Landesregierungen, in deren Gebiet sich das beantragte Versorgungsgebiet zur Gänze oder teilweise befindet, Gelegenheit zur Stellungnahme einzuräumen.

(2) Den betroffenen Landesregierungen ist ebenso zu Anträgen gemäß § 12 Gelegenheit zur Stellungnahme zu geben, soweit sich die Anträge auf die Schaffung eines neuen Versorgungsgebietes oder die Erweiterung eines bestehenden Versorgungsgebietes beziehen.

(3) Den Landesregierungen ist für Stellungnahmen gemäß Abs. 1 und 2 eine Frist von vier Wochen einzuräumen.“

Aus den Materialien (Erläuternde Bemerkungen zur Regierungsvorlage 401 BigNR 21. GP, S. 21) ergibt sich die Absicht des Gesetzgebers, den betroffenen Landesregierungen im Sinne einer allgemeinen „föderalistischen Ausrichtung“ und auf Grund der Auswirkungen einer Zulassungserteilung auf das jeweilige Land Gelegenheit zum Vorbringen

entscheidungerheblicher Umstände zu bieten. Die materiellrechtlichen Grundlagen für die Entscheidungsfindung der Behörde werden durch das Stellungnahmerecht der Landesregierung jedoch nicht berührt. Im Ermittlungsverfahren ist die Stellungnahme der Länder somit zu berücksichtigen, kann aber nur dort, wo sie sich auf die gesetzlich vorgegebenen Kriterien des Auswahlverfahrens bezieht, Eingang in die Auswahlentscheidung der Behörde finden (vgl. Bescheid des Bundeskommunikationssenats vom 06.11.2002, GZ 611.113/001-BKS/2002).

Die Steiermärkische Landesregierung hat sich in ihrer Stellungnahme vom 11.12.2014 für die neuerliche Zulassungserteilung an die Antenne Steiermark Regionalradio GmbH & Co KG ausgesprochen.

4.7. Prognoseentscheidung gemäß § 6 PrR-G

§ 6 PrR-G lautet wörtlich:

„§ 6 (1) Bewerben sich mehrere Antragssteller, die die gesetzlichen Voraussetzungen (§5 abs. 2 und 3) erfüllen, um einen Zulassung, so hat die Regulierungsbehörde dem Antragssteller den Vorrang einzuräumen,

1. bei dem auf Grund der vorgelegten Unterlagen sowie der Ergebnisse des Verfahrens die Zielsetzungen dieses Gesetzes am besten gewährleistet erscheinen, insbesondere indem insgesamt eine bessere Gewähr für eine größere Meinungsvielfalt geboten wird sowie ein eigenständiges, auf die Interessen im Verbreitungsgebiet Bedacht nehmendes Programmangebot zu erwarten ist oder im Fall von Spartenprogrammen im Hinblick auf das bereits bestehende Gesamtangebot an nach diesem Bundesgesetz verbreiteten Programmen von dem geplanten Programm ein besonderer Beitrag zur Meinungsvielfalt im Versorgungsgebiet zu erwarten ist und

2. von dem zu erwarten ist, dass das Programm den größeren Umfang an eigengestalteten Beiträgen aufweist.

(2) Die Behörde hat auch zu berücksichtigen, ob einer der Antragssteller bereits bisher die zu vergebende Zulassung entsprechend dem Gesetz ausgeübt hat und bei dieser Beurteilung insbesondere Bedacht zu nehmen, inwieweit sich daraus verlässlichere Prognosen für die Dauerhaftigkeit der Hörfunkveranstaltung ableiten lassen.

Im gegenständlichen Fall kommt § 6 PrR-G keine Bedeutung zu, da der Behörde zum Entscheidungspunkt nur der Antrag der Antenne Steiermark Regionalradio GmbH & Co KG vorliegt. Es war daher kein Auswahlverfahren im Sinne des § 6 PrR-G durchzuführen.

4.8. Befristung

Gemäß § 3 Abs 1 PrR-G ist eine Zulassung zur Veranstaltung eines Hörfunkprogramms von der Regulierungsbehörde auf zehn Jahre zu erteilen. Die Antenne Steiermark Regionalradio & Co KG ist aufgrund des Bescheids des Bundeskommunikationssenats vom 18.07.2006, GZ 611.110/0001-BKS/2005, bis zum 01.09.2015 Inhaberin einer Zulassung zur Veranstaltung von Hörfunk im Versorgungsgebiet „Steiermark“, sodass die verfahrensgegenständliche Zulassung für die Dauer von zehn Jahren ab 02.09.2015 erteilt wird.

4.9. Programmgestaltung, –schema und –dauer

Gemäß § 3 Abs. 2 PrR-G sind in der Zulassung die Programmgestaltung, das Programmschema und die Programmdauer zu genehmigen. Diese Genehmigung bezieht

sich auf das vom Antragsteller im Antrag vorgelegte Programm, das auch Grundlage der gemäß § 6 PrR-G vorzunehmenden Auswahlentscheidung war. Die Festlegung im Spruch des Bescheids, wie dies § 3 Abs. 2 PrR-G vorsieht, ist im Hinblick auf die Voraussetzungen der Einleitung des Verfahrens zur Feststellung und allfälligen Genehmigung einer grundlegenden Änderung des Programmcharakters gemäß § 28a Abs. 2 und 3 PrR-G sowie eines Entzugsverfahrens gemäß § 28 Abs. 2 PrR-G von Relevanz. Gemäß § 28 Abs. 2 PrR-G ist das Verfahren zum Entzug der Zulassung einzuleiten, wenn ein Veranstalter den Charakter des von ihm im Antrag auf Zulassung dargelegten und in der Zulassung genehmigten Programms grundlegend verändert hat, ohne dafür über eine Genehmigung durch die Regulierungsbehörde zu verfügen.

4.10. Versorgungsgebiet und Übertragungskapazität

Gemäß § 3 Abs. 2 PrR-G sind in der Zulassung auch das Versorgungsgebiet festzulegen und die Übertragungskapazitäten zuzuordnen.

Durch das PrR-G und das KOG wurde die Grundlage für ein „one-stop-licensing“ durch die Regulierungsbehörde gelegt, sodass sowohl die rundfunkrechtliche Zulassung – im Sinne der grundsätzlichen Bewilligung zur Veranstaltung von Hörfunk – als auch die fernmelderechtliche Frequenzzuordnung einschließlich der Errichtungs- und Betriebsbewilligung für die Funkanlagen der KommAustria obliegt. Entsprechend waren die verfahrensgegenständlichen Übertragungskapazitäten betreffend das Versorgungsgebiet „Steiermark“ nach § 54 Abs. 3 Z 1 und Abs. 5 TKG 2003 zuzuordnen und nach § 74 Abs. 1 Z 3 iVm § 81 Abs. 2 und 5 TKG 2003 die entsprechende Bewilligung für die Funkanlagen zu erteilen.

Das Versorgungsgebiet ist gemäß § 2 Z 3 PrR-G als jener geografische Raum definiert, der in der Zulassung durch Angabe der Übertragungskapazitäten sowie der zu versorgenden Gemeindegebiete umschrieben wird. Das Versorgungsgebiet wird damit wesentlich bestimmt durch die im Spruch festgelegten Übertragungskapazitäten, oder mit anderen Worten als jenes Gebiet, das mit den in der Zulassung festgelegten Übertragungskapazitäten in einer „Mindestempfangsqualität“ (RV 401 BlgNR XXI. GP, S 14: „zufriedenstellende durchgehende Stereoversorgung“) versorgt werden kann. Konstituierendes Element des Versorgungsgebiets ist daher die Zuordnung der Übertragungskapazitäten, aus denen sich entsprechend der physikalischen Gesetzmäßigkeiten der Funkwellenausbreitung in der speziellen topografischen Situation die versorgten Gebiete ableiten lassen. Im vorliegenden Fall umfasst das Versorgungsgebiet im Wesentlichen das Bundesland „Steiermark“ mit den Bezirken Deutschlandsberg, Graz-Umgebung, Leibnitz, Leoben, Liezen, Murau, Voitsberg, Weiz, Murtal, Bruck-Mürzzuschlag, Hartberg-Fürstenfeld und Südoststeiermark sowie angrenzende Teile des Burgenlandes, Niederösterreichs und Salzburgs.

4.11. Auflagen in technischer Hinsicht

Die nähere technische Prüfung des Antrages hat ergeben, dass die Koordinierungsverfahren hinsichtlich der in den Beilagen 1,2, 3, 9, 15 und 18 beschriebenen Übertragungskapazitäten noch nicht vollständig abgeschlossen sind. Da das endgültige Ergebnis der Koordinierungsverfahren noch ausständig ist, kann für diese Übertragungskapazitäten derzeit nur ein Versuchsbetrieb bis auf Widerruf bzw. bis zum Abschluss der Koordinierungsverfahren bewilligt werden. Im Falle eines positiven Abschlusses der Koordinierungsverfahren fällt die Einschränkung der Bewilligung auf Versuchszwecke weg. Im Falle eines negativen Abschlusses der Koordinierungsverfahren erlischt die Bewilligung.

Gemäß § 81 Abs. 6 TKG 2003 kann die Behörde mit Bedingungen und Auflagen Verpflichtungen, deren Einhaltung nach den Umständen des Falles für den Schutz des Lebens oder der Gesundheit von Menschen, zur Vermeidung von Sachschäden, zur Einhaltung internationaler Verpflichtungen, zur Sicherung des ungestörten Betriebes anderer Fernmeldeanlagen oder aus sonstigen technischen oder betrieblichen Belangen geboten erscheint, auferlegen.

Von dieser Möglichkeit hat die Behörde hinsichtlich der noch zu führenden Koordinierungsverfahren Gebrauch gemacht. Nach Abschluss der Koordinierungsverfahren kann die erteilte Auflage entfallen.

4.12. Kosten

Nach § 1 Bundesverwaltungsabgabenverordnung 1983 (BVwAbgV), BGBl. Nr. 24/1983 idF BGBl. II Nr. 101/2002, haben die Parteien für die Verleihung einer Berechtigung oder für sonstige wesentlich in ihrem Privatinteresse liegende Amtshandlungen, die von Behörden im Sinne des Art. VI Abs. 1 des Einführungsgesetzes zu den Verwaltungsvorschriften vorgenommen wurden, die gemäß dem Abschnitt II festgesetzten Verwaltungsabgaben zu entrichten.

Gemäß Tarifpost 452 im Besonderen Teil des Tarifes, auf welche durch § 4 Abs. 1 BVwAbgV verwiesen wird, beträgt die Verwaltungsabgabe für die Erteilung einer Zulassung nach §§ 17ff Regionalradiogesetz – RRG, BGBl. Nr. 506/1993, 490,- Euro.

Dabei schadet es nicht, dass in TP 452 auf §§ 17 RRG verwiesen wird, da nach § 5 BVwAbgV eine im besonderen Teil des Tarifes vorgesehene Verwaltungsabgabe auch dann zu entrichten ist, wenn die bei der in Betracht kommenden Tarifpost angegebenen Rechtsvorschriften zwar geändert wurden, die abgabepflichtige Amtshandlung jedoch ihrem Wesen und Inhalt nach unverändert geblieben ist. Das Wesen und der Inhalt der Erteilung einer Zulassung zur Veranstaltung eines Hörfunkprogramms blieb durch das Inkrafttreten des Privatradiogesetzes, BGBl. I Nr. 20/2001 mit 01.04.2001 unverändert, sodass die Gebühr gemäß TP 452 vorzuschreiben war.

4.13. Ausschluss der aufschiebenden Wirkung

Gemäß § 13 Abs. 1 VwGVG haben rechtzeitig eingebrachte und zulässige Beschwerden aufschiebende Wirkung; gemäß § 13 Abs. 2 VwGVG kann die Behörde die aufschiebende Wirkung mit Bescheid jedoch ausschließen, wenn nach Abwägung der berührten öffentlichen Interessen und Interessen anderer Parteien der vorzeitige Vollzug des angefochtenen Bescheides oder die Ausübung der durch den angefochtenen Bescheid eingeräumten Berechtigung wegen Gefahr im Verzug dringend geboten ist. Ein solcher Ausspruch ist tunlichst schon in den über die Hauptsache ergehenden Bescheid aufzunehmen.

Die derzeit von der Antragstellerin ausgeübte Zulassung endet am 01.09.2015 durch Zeitablauf. Der Gesetzgeber des PrR-G geht von einem möglichst kontinuierlichen Weiterbetrieb selbst im Falle einer Aufhebung der Zulassung durch einen Gerichtshof des öffentlichen Rechts aus, wie sich aus § 3 Abs. 7 und 8 PrR-G ergibt. Es besteht daher ein dringendes öffentliches Interesse an einer möglichst unterbrechungsfreien Hörfunkveranstaltung. Im vorliegenden Fall würde mangels anderer Antragsteller auch nicht in die Interessen anderer Parteien eingegriffen werden. Es war daher unter Berücksichtigung des öffentlichen Interesses iSd § 13 Abs. 2 VwGVG dringend geboten, den Ausschluss der aufschiebenden Wirkung einer allfälligen Beschwerde gegen den gegenständlichen Bescheid auszusprechen (Spruchpunkt 7.).

Es war daher spruchgemäß zu entscheiden.

III. Rechtsmittelbelehrung

Gegen diesen Bescheid steht der/den Partei/en dieses Verfahrens das Rechtsmittel der Beschwerde gemäß Art. 130 Abs. 1 Z 1 B-VG beim Bundesverwaltungsgericht offen. Die Beschwerde ist binnen vier Wochen nach Zustellung dieses Bescheides schriftlich, telegraphisch, fernschriftlich, im Wege automationsunterstützter Datenübertragung oder in jeder anderen technisch möglichen Weise bei der Kommunikationsbehörde Austria einzubringen. Die Beschwerde hat den Bescheid, gegen den sie sich richtet, ebenso wie die belangte Behörde, die den Bescheid erlassen hat, zu bezeichnen und die Gründe, auf die sich die Behauptung der Rechtswidrigkeit stützt, das Begehren sowie die Angaben zu enthalten, die erforderlich sind, um zu beurteilen, ob die Beschwerde rechtzeitig eingebracht wurde. Für die Beschwerde ist eine Gebühr in Höhe von EUR 30,- an das Finanzamt für Gebühren, Verkehrssteuern und Glückspiel (IBAN: AT83010000005504109, BIC: BUNDATWW, Verwendungszweck: „Bundesverwaltungsgericht“, Vermerk: „Name des Beschwerdeführers“) zu entrichten. Die Entrichtung der Gebühr ist im Zeitpunkt der Einbringung der Eingabe durch einen von einer Post-Geschäftsstelle oder einem Kreditinstitut bestätigten Zahlungsbeleg in Urschrift nachzuweisen.
